

ElectraSolve Anti-Static Carpet Spray Data Sheet

Overview: ElectraSolve is an Anti-Static spray for use on carpet. It provides outstanding longevity and immediate results. ElectraSolve is very low odor, environmentally oriented and biodegradable.

Application: Remove dust and loose dirt from carpet with vacuum cleaner. Remove stains to carpet with spotter or a carpet shampooing procedure. Adjust a trigger or pressurized sprayer to deliver a very fine mist and lightly cover the application area evenly. **Do not over apply or the carpet will feel slick when dry!** The carpet should feel dry within 10 to 15 minutes after application. Reapply as needed to control static and after shampooing. Static dissipating properties will continue for 60 to 120 days depending on the amount of traffic and relative humidity.

Coverage: Approximately 2,000 to 4,000 square feet per gallon

Shelf Life: 2 Years from date of purchase

**Finally an Anti-Static Spray that REALLY Works!
